Community & Brand Support

Describe your destination (who you are, who you wish to attract and why would they come) addressing your strengths, opportunities, and potential challenges. How does your destination align with Montana's brand pillars?

Bozeman, Montana, is more than a destination, it's a lifestyle. Surrounded by majestic mountains, rivers full of fat trout and with Yellowstone National Park as a neighbor, outdoor adventure is just a short drive away. Couple that with a town rich in art, music, dining and entertainment and you'll see why Bozeman is the most sought out spot in Montana!

Visitors coming in the spring will find spectacular photo opportunities as the hills turn green with snow-capped mountains in the background. Wildlife watching in Yellowstone is at its prime with babies such as moose, elk and bison calves, bear cubs, fox and wolf pups being born. The spring runoff brings with it exciting whitewater rafting and wildflowers start to pop.

Summer is Bozeman's busiest season with 65% of Bozeman tourists visiting Yellowstone National Park, (ITRR, Nonresident Visitor Survey, 2017). Bozeman is surrounded by the Gallatin, Madison and Yellowstone rivers, all of which are well-known and respected by anglers worldwide.

Winter enthusiasts love Bozeman. Bridger Bowl and Big Sky Resort both offer world-class alpine skiing without the lift lines that often accompany other popular ski areas. Nordic skiing is top notch with Crosscut Mountain Sports Center in Bridger Canyon, local trails groomed by Bridger Ski Foundation, backcountry trails in Hyalite Canyon and Lone Mountain Ranch in Big Sky. Snowmobile guides can take you into beautiful backcountry and for a unique adventure, dog sledding trips are available in Big Sky and Paradise Valley. For those who prefer a more low-key adventure, there are endless opportunities for snowshoeing.

The cultural scene in this mountain town rivals that of larger cities. Museum of the Rockies, a Smithsonian Affiliate, is home to the largest collection of dinosaur fossils in North America. The Bozeman Symphony and Intermountain Opera have ongoing performances and the three historic theaters in town bring in a variety of live shows. The annual Sweet Pea Festival each August is a local favorite. This three-day festival celebrates the arts with music, art shows, dance, theater, food and activities for the kids.

Montana State University, the state's largest college, brings a vibrant energy to town, including educational and inspirational speakers, exciting sporting events and big-name concerts.

Strengths

- Bozeman is the largest city bordering Yellowstone National Park sitting between the North and West entrances. In 2017, 65 percent of people staying at least one night in Bozeman visited Yellowstone. (ITRR, Nonresident Visitation, 2017.)
- Access to Bozeman continues to get easier. We have 16 nonstop flights to major cities across the United States. Bozeman Yellowstone International Airport is projecting another record breaking year with total passengers enplaned and deplaned expected to surpass 1,301,000. American Airlines continues to expand service with larger planes and an added flight to Los Angeles. JetBlue Airways will begin seasonal service with two weekly flights from Bozeman to California's Long Beach Airport starting winter, 2017-2018. In 2017, 22 percent of people visiting arrived by air, a number that is expected to keep growing. (ITRR, Nonresident Visitation, 2017.)
- Bridger Bowl ski area and Big Sky Resort have some of the best skiing in the Rockies. The uncrowded mountains, big terrain and lots of light, fluffy snow, make it a unique ski destination.
- Downtown is a lively hot spot of restaurants, galleries, boutiques and entertainment. With two new hotels and more on the way, visitors can now stay in the heart of Bozeman.
- Montana State University is now the largest university in Montana. Many a student has visited on vacation then returned to study, and many a parent has made it a vacation to come visit their children!
- Two of Montana's State Parks, Madison Buffalo Jump and Missouri Headwaters, are located within a half hour's drive from Bozeman. Both parks have interpretive displays of the area's cultural and natural history. Lewis and Clark Caverns, another family favorite is just an hour away. Here you'll find one of the largest known limestone caverns in the United States.
- Bozeman is an ideal home base to stay while taking day trips to places such as historic Virginia and Nevada Cities, Livingston, Big Sky and West Yellowstone. You can find a scenic drive in every direction, with hiking trails at every stop and top-notch fishing in each direction.

Opportunities

Increasing winter visitation.

Bozeman's biggest opportunity is the potential to increase winter visitation. According to Destination Analysts Winter Enthusiast Research, January 2018, the winter enthusiast identifies January as a time they would be most likely to visit; which for us, is an ideal time to increase hotel occupancy, skier numbers and winter visits to Yellowstone National Park.

Potential visitors in the study also list the top four important attributes for winter recreation include affordability, charming small towns near ski resorts, proximity to National Parks, hot springs and thermal pools. Bozeman embodies all these attributes.

All five of the top states with a high concentration of winter enthusiasts are included in Bozeman's target markets: California, Texas, Florida, New York and Pennsylvania. We consistently receive high organic search traffic from Florida and Pennsylvania without having utilized paid media in these areas.

Leveraging original content specific to visitor's interests; "Meet them where they are."

In FY18, we established a robust inbound marketing strategy which included blogs, paid search and a social media focus. Much of this content is evergreen and along with fresh, ongoing, new content can be used as touch points throughout a visitor's vacation planning. This content strategy allows us to continuously provide information specific to what a traveler has shown interest in.

We also invested in new video and photo assets which will allow us to create fresh, relevant content in the form of blogs, short form videos and photography. These assets will also be used in a new digital and print campaign which will launch with the winter season late summer and early fall.

Increased collaboration with tourism partners.

The airline marketing group, which includes the Bozeman CVB/TBID, Yellowstone Country, Big Sky Resort, Visit Big Sky, Yellowstone Club and Bozeman Yellowstone International airport has focused efforts on promoting the area to direct flight destinations. This partnership continues to grow based on increased air service to our area.

Paid media partnerships with MTOTBD, Yellowstone Country, and other state region partners in channels such as Trip Advisor or the Glacier Visitor's Guide have given us wide-ranging, cost-effective exposure while leveraging media budgets and have proven to be valuable opportunities.

We are planning to expand our collaboration with other tourism entities to host social media influencers, press trips and FAM tours to the area.

On a local level, we are launching a focused outreach to local businesses encouraging them to share and distribute our content through their own social media channels. We can also serve as a platform to share local events.

Potential Challenges

Overcoming the perception that it's difficult to get here.

Despite having robust air service, including 16 nonstop flights to major cities, many people still have the impression it is difficult to get here. Currently, 75% of visitors are arriving by auto. (ITRR, Nonresident Visitation, 2017.) This tells us we are still missing a large geographic market out of our drive areas. The 2017 Montana Brand Exploration Research conducted by Destination Analysts found that many people feel it takes a significant amount of time to vacation in Montana. Increased promotion of our air service to the eastern side of the country can help alleviate this perception.

Balancing hotel inventory.

Summer is the busiest season in Bozeman with hotels reaching full occupancy which can drive rates up. Our challenge is to increase our winter and shoulder season visitation, balancing the inventory and increasing traffic to local businesses. New hotels are being added at a rapid rate and only time will tell how it may affect our year-round occupancy.

Congestion in Yellowstone National Park.

It's not surprising that summer is the most popular time to visit Yellowstone, but the growth has presented a problem with large numbers of people visiting the park at the same time. Yellowstone officials are looking into ways to manage the growth, but from a local perspective, we can use our marketing to encourage visitation during other times of the year.

Significant weather events.

The emphasis on our outdoor recreation brings with it potential hurdles from Mother Nature. Last year's fires didn't significantly impact the Bozeman area, but since much of the state was severely affected by smoke, there was a widespread belief that it encompassed Bozeman. Likewise, 2017-18 was a tremendous snow year, but if we get a year with low snowfall, last minute travelers are less likely to come.

Attracting Canadian visitors.

Given the strength of the dollar, we are not seeing growth or interest from the Canadian market at this time. This has previously been one of our emerging markets. With limited data on the Canadian traveler to our area, it has been difficult to find confidence in backing direct flights to BZN.

Economic Concerns.

The current economic climate could raise concerns about discretionary spending.

Describe your destination.

Inspiration

Our marketing strategy starts with paid advertising showcasing outdoor recreation, history and an energetic downtown. In FY18, we invested in new creative assets and our photo and video library is a varied mix of these attributes. In addition to our longer, seasonal videos, we are planning to create several short form video clips that can be used on social media, email blasts and the website.

Our robust inbound marketing strategy features targeted blog posts to help potential visitors develop a deeper understanding of the area. This effort has informed our strategy and allowed us to further refine our content. We know from categorizing over 180 blogs posts into clusters, the top topics of interest are: Yellowstone National Park, relaxing, skiing, traveling to Bozeman and lodging in Bozeman. For example, our posts with the most engagement were:

1. Ranking the 14 Best Hot Springs in Montana - 41K Views
2. 15 Nonstop Flights to Bozeman You Need to Know About - 23K Views
3. 7 Life Changing Things to Do In Yellowstone - 15K Views
4. 15 Interesting Yellowstone National Park Facts You Didn't Know - 14K Views
5. 5 Myths About Visiting Bozeman, Montana - 13 K Views

User-generated content on Instagram, using the hashtag #OnlyInBozeman, has driven fantastic organic growth with these followers becoming ambassadors for Bozeman.

In FY19, we are putting a bigger emphasis on attracting social media influencers, who can inspire their own following.

Orientation

Once potential visitors arrive at our website they are prompted to download the Travel and Relocation Guide and to subscribe to our email updates. After they have registered, we send a series of emails with our latest blog posts, travel planning tips and vacation ideas. The final emails invite them to sign up for our blog and follow us on social media. This strategy allows us to follow visitors through the buying journey, providing relevant information at numerous points.

The results exceeded our expectations with overall web traffic up 90% FYTD and organic traffic up 206% FYTD year over year. Our top sources of web traffic are coming from organic traffic, paid search and social media referrals.

This year, we will introduce a re-engagement campaign at the beginning of the respective warm and winter seasons.

This strategy has also put us one step ahead in the world of search. With the growing popularity of voice search through smartphones and audio assistants search engines are now evolving to follow a human thought process rather than "keyword stuffing." Search engines are now evaluating how people search and fresh, relevant content improves our organic rankings.

Facilitation

The Bozeman CVB and TBID collaborate with shared goals, one marketing plan and one website. This partnership allows us to provide detailed information drilling down into specific businesses within the categories of Stay, Eat, Play, Work and Explore.

The lodging area of our site garners a lot of interest with a higher conversion rate. Lodging has an individual landing page which can then take the visitor directly to the hotel site for booking. Hotel referrals from the Bozeman website are averaging 600-700 per month.

Website visitors who download a Travel and Relocation Guide or subscribe to our blog continuously receive information based on their interests.

a. Define your target markets (demographic, geographic and psychographic).

Geographic

Primary

- New York
- Dallas
- Chicago
- Los Angeles
- San Francisco

Secondary

- Houston
- Denver
- Atlanta
- Seattle
- Portland
- Phoenix
- Las Vegas
- Salt Lake
- Minneapolis

Direct Flight Markets-(There is some overlap with above lists, but this delineates these markets specifically.)

- Seattle/Tacoma
- Portland
- San Francisco
- Los Angeles
- Long Beach
- Salt Lake City
- Las Vegas
- Phoenix/Mesa
- Denver
- Minneapolis/St.Paul
- Chicago
- Dallas/Fort Worth
- Houston
- Atlanta
- New York/LaGuardia
- Newark

Interests

According to the ITRR 2017 Nonresident Visitor Study, most of the activities visitors are interested in take place during the warm season.

- 64% Scenic Driving
- 42% Day Hiking
- 42% Wildlife Watching
- 31% Nature Photography
- 27% Recreational Shopping
- 23% Car/RV Camping
- 23% Visiting Other Historical Sites
- 22% Visit Local Brewery
- 16% Visiting Museums
- 14% Visiting Lewis & Clark Sites
- 10% Fishing/Fly Fishing
- 9% Skiing/Snowboarding
- 8% Visit Farmers Market
- 8% Dinosaur Attraction

Again, this demonstrates the opportunity to round out our winter season visits by promoting winter activities such as skiing/snowboarding, nordic skiing and visiting Yellowstone National Park in the winter. Many of these activities such as visiting historical sites and museums, scenic driving, and nature photography are great shoulder season activities.

Target Demographics

- Winter Enthusiasts
- Families
- Urban Dwellers
- Young Professionals

Other Targets

Meetings

Bozeman is a popular spot for destination meetings. However, our event space is somewhat limited which dictates that we focus on meetings of 500 participants or less. Targeted industries are technology, agriculture, education and other professional and trade associations.

Film

We look forward to expanding our relationship with the Montana Film Office. The Bozeman area has been the location for box office hits like "A River Runs Through It," "The Horse Whisperer," and numerous commercial spots.

Sports Tournaments and Events

Running events in Bozeman continue to gain popularity. Run to the Pub has been Voted the #2 Best-in-the-U. S half marathon by Runner's World. The Bozeman Marathon is a Boston Marathon Qualifier, and the Bridger Ridge Run is known as one of the most technical trail runs in the United States.

We collaborate closely with the Bozeman TBID's sports tournament committee, which focuses on statewide and regional tournaments both inside and outside of the Montana High School Association.

b. What are your emerging markets?

Emerging

We are seeing a strong segment of organic traffic coming from Florida and Pennsylvania. These states, along with California, Texas and New York, align with the top states winter enthusiasts reside. Other emerging markets include Washington DC, Boston and Charlotte.

c. What research supports your target marketing?

Our FY19 targets are informed by a combination of research and metrics from:

- ITRR Nonresident Visitor Study, 2017
- Study of the Winter Enthusiast, Destination Analysts, 2017
- Montana Brand Exploration Research, Destination Analysts, 2016
- Website Traffic Trends
- Bozeman CVB Email List
- Social Media Metrics
- Bozeman Yellowstone International Airport Data

Our primary goals for FY19 are:

- Increase winter visitation by marketing our vast winter recreation: alpine and nordic skiing, snowmobiling, snowshoeing, dog sledding and ice skating. Bozeman is rich in culture which complements our outdoor recreation.
- Increase visitation during shoulder seasons to make Bozeman more of a year-round destination. Promoting activities such as wildlife watching in Yellowstone, spring fishing, hiking and cultural activities such as visiting museums and festivals will help communicate that spring and fall are great times to visit.
- Continue to build and nurture our email list through inbound content marketing including blog posts, follow up emails, newsletters and social media. This strategy keeps Bozeman top of mind and engages these self-selected, potential visitors throughout their trip planning process.

a. In what types of co-ops with MTOT would you like to participate?

In FY18 we saw remarkable success with On The Snow, Trip Advisor and Roots Rated.

After reviewing the Joint Venture opportunities for FY19, we plan to incorporate the following packages:

1. VisaVue Travel Spending Data - \$5,800
2. LiveIntent - \$10K package (\$5,000 spend from Bozeman CVB)
3. On The Snow - \$10K Package (\$5,000 spend from Bozeman CVB)
4. TripAdvisor - (2) \$10K Packages (\$5,000 spend from Bozeman CVB) one winter one summer

We also plan to utilize the Arrivalist platform to further close the gap on our ROI.

Optional: Include attachment here.

b. In what other types of co-ops would you like to participate? (Regions/CVBs, etc.)

Bozeman CVB and TBID have an ongoing collaboration with both boards pooling funds and approving a joint marketing plan. This strategy has been highly successful with the ability to leverage our funds toward a common goal.

In FY17 Bozeman CVB partnered with Yellowstone Country, Big Sky CVB, Big Sky Resort, Yellowstone Club and Bozeman Yellowstone International Airport to form the Air Transportation Committee with the goal of creating a cohesive marketing campaign to promote our nonstop flights. The first year we focused on the Texas market for the Dallas and Houston flights. In FY18 we broadened that reach to include Los Angeles and San Francisco. The campaign is a combination of digital and print advertising along with a strong social media presence.

In FY18 we collaborated with Yellowstone Country for a Trip Advisor co-op that was highly successful. We also continued our long-standing partnership with Bridger Bowl to promote our area in Powder Magazine, along with an in-flight video advertisement on United Airlines. Based on the results of these campaigns, we intend to continue these partnerships while continuing to explore other opportunities throughout FY19.

c. What types of co-ops have you done in the past? Were they successful - why or why not?

Our collaborative marketing with the Air Transportation Committee has been successful for specific airline campaigns, but we have also been able to leverage Bozeman CVB marketing funds by targeting the same cities which then increases our exposure and maximizes our budget.

Most of our state cooperatives have been successful. While Roots Rated did well, our own original content produced better results, therefore we will be re-allocating those dollars to other joint ventures.
